

The Long Firm Supports Lawyers for Learning

JANUARY 2010

Lawyers for Learning is a non-profit corporation which provides a program through which members of the legal community of Erie County, New York volunteer as tutors and mentors at Buffalo Public School 18, a public grade school located in the economically depressed Westside neighborhood of Buffalo, New York. School 18 has one of the highest rates of poverty among Buffalo Public Schools. In addition to the firm's financial support we also encourage our firm's attorneys and staff to commit time to the tutoring and mentoring program of an academically at risk and/or financially disadvantaged student in order to improve his or her academic performance, build self-esteem, and provide a professional role model.
