

The Long Firm Supports Erie 1 BOCES Students

SPRING 2012

In the spring of 2012, and further to our mission to support providing educational opportunities to students in Western New York, The Long Firm, LLP played host to a legal intern from a local high school interested in pursuing a career in law. Under Erie 1 BOCES students are offered the opportunity to explore all aspects of the judicial system including Local, State and Federal Courts, law enforcement organizations, correctional facilities and local law offices, such as was the case with The Long Firm, LLP. In her four week program our student intern saw firsthand the workings of a civil litigation firm, including her participation in a client interview, appearing in Court with our associate attorney, trying her hand at legal writing and observing the day to day administration of a law business.
